

He joined the Technical University of Kenya (TUK) in 2010 where he is serving as an associate professor in the department of Mechanical and Mechatronics Engineering. Prior to his appointment at TUK, he was the head of Industrial and Energy engineering department at Egerton University, Kenya. He is also the director of Industry and Professional partnership at Technical University of Kenya. His research interest is centered on renewable energy.

Prof. Ogola is a founder member/Fellow member and honorable secretary to the Institution of Engineering Technologists and Technicians in Kenya (IETT). He is also affiliated to the Engineering council and Institute of mechanical Engineers of UK as a member and Associate member respectively.

Jose-María Molina-García-Pardo (M'99) was born in Orihuela, Spain, in 1977. He received the B.S. degree in telecommunications engineering from the Universidad Politécnica de Valencia, Valencia, Spain, in 2000, the M.Sc. degree in communication and signal processing from the University of Newcastle, Newcastle, U.K., in 2001, and the Ph.D. degree in telecommunications engineering from the Universidad Politécnica de Cartagena, Cartagena, Spain, in 2004.

In 2000, he was with the Department of Communications and Signal Processing, University of Newcastle, where he was involved with blind source separation. In 2001, he joined the Department of Information Technologies and Communications, Universidad Politécnica de Cartagena, where he is currently an Associate Professor. His research activities have been centered on propagation studies for multiple-input and multiple-output systems, measurement campaigns in special environments, and ray launching in the area of mobile personal communications systems.

Prof. J.M. Molina is a senior member of the IEEE.

Concepcion Garcia-Pardo was born in La Puebla-Cartagena, Spain, in 1983. She received the B.Sc. degree in telecommunications engineering, M.Sc. degree in information technologies and communication, and Ph.D. degree in telecommunications engineering from the Universidad

Politécnica de Cartagena, Cartagena, Spain, in 2007, 2008, and 2012, respectively.

In 2007, she joined the Department of Information Technologies and Communications, Universidad Politécnica de Cartagena. Her research activities are centered on multiple-input–multiple-output systems, wideband channel sounding, and ultra wideband channel modeling. Currently she is a Postdoctoral researcher at iTEAM, Institute of Telecommunication and Multimedia Application at the Universitat Politècnica de Valencia. Dr. Concepcion is a member of IEEE ..

Andres Garrido-Cervantes was born in Archena, Spain, in 1986. He received the B.S. degree in telecommunications engineering from the Universidad Politécnica de Cartagena, Cartagena, Spain, in 2010.

He joined the Department of Radio and Transport, Telefónica de España, Madrid, Spain, where he is currently working.

Leandro Juan-Llacer (M'99–SM'03) was born in Albaterra, Spain, in 1967. He received the B.S. degree in telecommunications engineering from the Universitat Politècnica de Catalunya, Barcelona, Spain, in 1993, and the Ph.D. degree in communications engineering from the Universidad Politécnica de Valencia (UPV), Valencia, Spain, in 1998.

In 1994, he was with the Department of Signal Theory and Communications, UPV, where he was an Associate Professor of electromagnetics from 1995 to 2000. He is currently a Full Professor with the Department of Information Technologies and Communications, Universidad Politécnica de Cartagena, Cartagena, Spain. He has also been participating in COST actions 259, 273, and 2100. His research activities have focused on the characterization and modeling of radio wave propagation in mobile communication systems.

Prof. Juan-Llacer is a recipient of the Doctoral Prize given by the Telecommunications Engineering Association of Spain for his Ph.D. dissertation on urban wave propagation and channel characteristics, particularly for mobile communications. He is a Senior member with IEEE.
